Subject: March 6 Puget Sound Nutrient Forum: Lessons learned from other US coastal estuaries
Date: Monday, February 25, 2019 11:08:59 AM

Greetings,

This is a reminder that next week is our Puget Sound Nutrient Forum, thank you to those who have already RSVPed. We are excited to host three guest speakers from the Long Island Sound, Chesapeake Bay, and San Francisco Bay to learn about the nutrient management efforts and dissolved oxygen TMDLs in those large estuaries. The event will be a great opportunity to learn from these examples and ask questions to experts from these areas. You may view our [draft agenda](#) on our [Nutrient Forum webpage](#). The agenda also includes some helpful links for this meeting and to project information.

We will meet on March 6 from 10am-3pm at the Lacey Community Center. [Please RSVP](#) if you plan to attend. For those who cannot attend in person, there is a webinar option via Webex. This Forum we will focus on how other state agencies and organizations are managing nutrients in their coastal estuaries. Coffee and light refreshments will be provided in the morning, but please bring a lunch or plan to get something nearby during the lunch break.

We look forward to seeing you there.
